Users Frontend Up and Running

The screenshot shows a web browser at localhost:8080/ui/index.html. The app header is "Body Sculpt App" with the subtitle "Phase 3 Frontend Client for CSCE 548". A navigation bar contains buttons for "Users", "Workouts", "Workout Entries", "Meals", and "Meal Items". The "Users" page has a form with fields for "First Name", "Last Name", "Email", and "Height (cm)". Above the form are buttons for "Enter User ID", "Get By ID", and "Get All". Below the form are buttons for "Add User", "Update User", "Delete User", and "Clear Form". A large dark blue rectangular area at the bottom is intended for displaying the list of users.

Added User

This screenshot shows the same "Users" page, but the form fields are populated: "First Name" is "John", "Last Name" is "Knee", "Email" is "JohnKnee@email.com", and "Height (cm)" is "173". The "Add User" button is highlighted. Below the form, a dark blue area displays a JSON object representing the added user:

```
{
  "user_id": 7,
  "first_name": "John",
  "last_name": "Knee",
  "email": "JohnKnee@email.com",
  "height_cm": 173
}
```

Workout Entries Frontend Up and Running

The screenshot shows a web browser at localhost:8080/ui/index.html displaying the 'Body Sculpt App' interface. The app has a dark blue header with the title 'Body Sculpt App' and subtitle 'Phase 3 Frontend Client for CSCE 548'. Below the header is a navigation bar with tabs: 'Users', 'Workouts', 'Workout Entries' (selected), 'Meals', and 'Meal Items'. The main content area is titled 'Workout Entries' and contains a form with the following fields: 'Enter Entry ID' (text input), 'Get By ID' (button), 'Get All' (button), 'Workout ID' (text input), 'Exercise Name' (text input), 'Sets' (text input), 'Reps' (text input), and 'Weight (kg)' (text input). Below the form are four buttons: 'Add Workout Entry' (blue), 'Update Workout Entry' (blue), 'Delete Workout Entry' (blue), and 'Clear Form' (grey). A large dark blue rectangular area is visible below the buttons, likely a placeholder for a list of entries.

Added Workout Entry

The screenshot shows the same 'Body Sculpt App' interface, but with the 'Workout Entries' form filled out. The 'Workout ID' field contains the value '12', the 'Exercise Name' field contains 'Diamond Cutter', the 'Sets' field contains '5', the 'Reps' field contains '10', and the 'Weight (kg)' field contains '0'. The 'Add Workout Entry' button is highlighted in blue. Below the form, the dark blue rectangular area now displays a JSON object representing the added entry:

```
[
  {
    "entry_id": 32,
    "workout_id": 12,
    "exercise_name": "Diamond Cutter",
    "sets": 5,
    "reps": 10,
    "weight_kg": 0
  }
]
```
